

# REVOLUTIONIZING ATTENDANCE WITH THE FEYNMAN FT025 INTELLIGENT ATTENDANCE SYSTEM

FEYNMAN TECHNOLOGIES LTD

# THE CHALLENGE OF TRADITIONAL ATTENDANCE

- **Time-Consuming:** Manual sign-ins, roll calls, and data entry are inefficient.
- **Prone to Errors:** Illegible handwriting and miscalculations are common.
- **Security Risks:** Buddy punching, unauthorized access, lack of oversight.
- **Lack of Actionable Insights:** Difficult to analyze attendance trends.
- **Hygiene Concerns:** Shared surfaces can pose health risks.
- **Inconvenience:** Books and innovations in attendance inconvenience both subjects workers/students and administrators.

# INTRODUCING THE FEYNMAN FT025: ATTENDANCE REIMAGINED

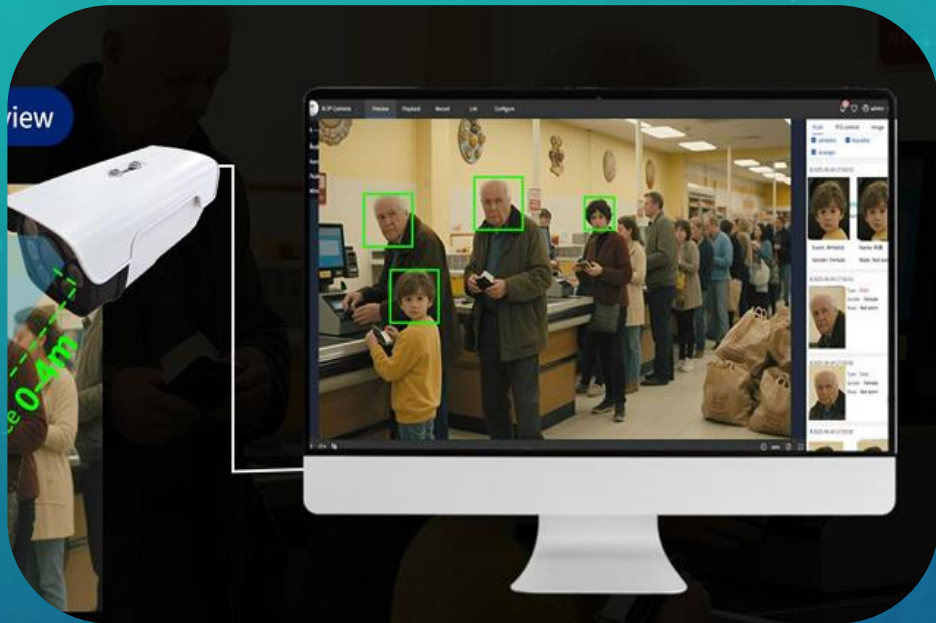

- Meet the Feynman FT025 Intelligent Attendance System.
- A cutting-edge, AI-powered attendance System designed for accuracy, efficiency, and security.
- Developed by Feynman Technologies Ltd. In Uganda.

# KEY BENEFITS: WHY AI ATTENDANCE?

- Unrivaled Accuracy: Eliminate manual errors.
- Enhanced Security: Prevents buddy punching and tracks unauthorized individuals.
- Significant Time Savings: Automates attendance capture.
- Improved Hygiene: Touchless face recognition.
- Convenient: No action is needed from the audience, just passing in front of the system.
- Actionable Insights: Real-time attendance reports.
- Robust & Reliable: 24/7 continuous operation.

# HOW IT WORKS: INTELLIGENT FACE RECOGNITION

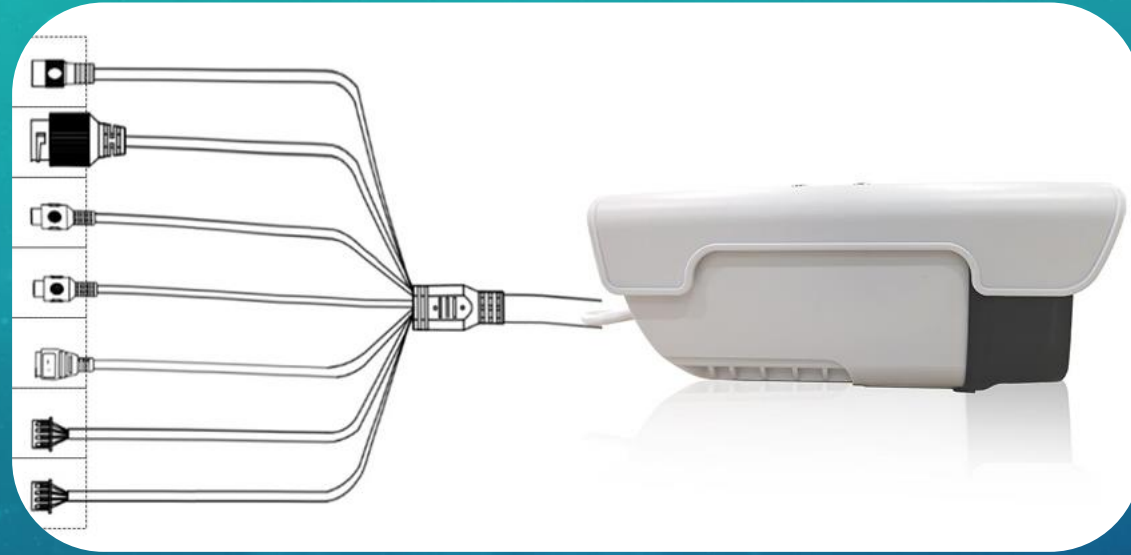

- Uses deep learning for face matching, detection, and tracking.
- Supports moving face recognition with best-match results.
- Multi-Person Detection: Detects up to 32 people simultaneously.
- Capture Modes: Quick capture, optimal capture, and face deduplication.

# ADVANCED FEATURES FOR COMPREHENSIVE MANAGEMENT

- 4MP Zoom Lens: High-quality images with auto-focus.
- Smart Exposure & Fill Lights: Ensures clarity under lighting conditions.
- Infrared & White Light Fill Lights: Day/night capture.
- IP66 Protection: Dust and water resistant.
- Wide Temperature Range: -30°C to +60°C.

# SEAMLESS INTEGRATION & CONTROL

- **Protocol Support:** Onvif, GB28181, MQTT, HTTP, and more.
- **Power over Ethernet (PoE):** Simplifies installation.
- **Built-in Audio:** MIC/speaker for warnings.
- **Alarm I/O:** Connects to existing security systems.
- **Local Storage:** Up to 256GB SD card supported.

# PRACTICAL APPLICATIONS: YOUR BENEFITS IN ACTION

- **Education:** Automates attendance, monitors population, enhances security.
- **Corporate:** Manages time and access control.
- **Retail:** Employee attendance, Visitor tracking and behavioral analytics.

# WHY CHOOSE FEYNMAN TECHNOLOGIES?

- ✓ **Local Expertise:** Ugandan-developed and supported.
- ✓ **Cutting-Edge Technology:** Deep learning AI.
- ✓ **Comprehensive Support:** From setup to maintenance.
- ✓ **Customizable Solutions:** Tailored to your needs.
